

*Providing the Aftermarket with Automotive Braking Solutions*

# **Asbestos-Free** **Drum Brake Shoes**

**Professional Grade Coreless Drum Brake Shoes**

## **Maximum Coverage**

We offer a comprehensive line of riveted and bonded brake shoes for the professional installer, covering passenger vehicles, light trucks, and medium duty trucks.

## **Smooth Stopping**

An asbestos-free composite friction provides consistent quality and performance. Excellent wear and fade characteristics are evident, while still maximizing drum life.

## **Premium Quality**

Each brake shoe lining is contoured for proper contact inside the brake drum. Anchor pins are included to create a secure foundation for all hardware. And steel rivets in riveted applications and proven adhesives in our bonded brake shoes ensure the highest shear strength.

## **Emergency Brake Applications**

Complete, late model vehicles on emergency brake applications, including General Motors band type shoe. All emergency brake levers are included where necessary.
